1. Aims

Our school aims to:

- Provide and maintain a safe and healthy environment
- Establish and maintain safe working procedures amongst staff, pupils and all visitors to the school site
- Have robust procedures in place in case of emergencies
- Ensure that the premises and equipment are maintained safely, and are regularly inspected

2. Legislation

This policy is based on advice from the Department for Education on [health and safety in schools](#) and the following legislation:

- [The Health and Safety at Work etc. Act 1974](#), which sets out the general duties employers have towards employees and duties relating to lettings
- [The Management of Health and Safety at Work Regulations 1992](#), which require employers to make an assessment of the risks to the health and safety of their employees
- [The Management of Health and Safety at Work Regulations 1999](#), which require employers to carry out risk assessments, make arrangements to implement necessary measures, and arrange for appropriate information and training
- [The Control of Substances Hazardous to Health Regulations 2002](#), which require employers to control substances that are hazardous to health
- [The Reporting of Injuries, Diseases and Dangerous Occurrences Regulations \(RIDDOR\) 2013](#), which state that some accidents must be reported to the Health and Safety Executive and set out the timeframe for this and how long records of such accidents must be kept
- [The Health and Safety \(Display Screen Equipment\) Regulations 1992](#), which require employers to carry out digital screen equipment assessments and states users' entitlement to an eyesight test
- [The Gas Safety \(Installation and Use\) Regulations 1998](#), which require work on gas fittings to be carried out by someone on the Gas Safe Register
- [The Regulatory Reform \(Fire Safety\) Order 2005](#), which requires employers to take general fire precautions to ensure the safety of their staff
- [The Work at Height Regulations 2005](#), which requires employers to protect their staff from falls from height

The school follows [national guidance published by Public Health England](#) when responding to infection control issues.

3. Roles and responsibilities

3.1 The local authority and governing body

RBWM has ultimate responsibility for health and safety matters in the school, but delegates responsibility for the strategic management of such matters to the school's governing body.

The governing body delegates operational matters and day-to-day tasks to the headteacher and staff members.

The governor who oversees health and safety is Carol Corbitt.

3.2 Headteacher

The headteacher is responsible for health and safety day-to-day. This involves:

- Implementing the health and safety policy
- Ensuring there is enough staff to safely supervise pupils
- Ensuring that the school building and premises are safe and regularly inspected
- Providing adequate training for school staff
- Reporting to the governing body on health and safety matters
- Ensuring appropriate evacuation procedures are in place and regular fire drills are held
- Ensuring that in their absence, health and safety responsibilities are delegated to another member of staff
- Ensuring all risk assessments are completed and reviewed
- Monitoring cleaning contracts, and ensuring cleaners are appropriately trained and have access to personal protective equipment, where necessary

In the headteacher's absence, the deputy headteacher assumes the above day-to-day health and safety responsibilities.

3.3 Health and safety lead

The nominated health and safety lead is the headteacher.

3.4 Staff

School staff have a duty to take care of pupils in the same way that a prudent parent would do so.

Staff will:

- Take reasonable care of their own health and safety and that of others who may be affected by what they do at work
- Co-operate with the school on health and safety matters
- Work in accordance with training and instructions
- Inform the appropriate person of any work situation representing a serious and immediate danger so that remedial action can be taken
- Model safe and hygienic practice for pupils
- Understand emergency evacuation procedures and feel confident in implementing them

3.5 Pupils and parents

Pupils and parents are responsible for following the school's health and safety advice, on-site and off-site, and for reporting any health and safety incidents to a member of staff.

3.6 Contractors

Contractors will agree health and safety practices with the site controller before starting work. Before work begins the contractor will provide evidence that they have completed an adequate risk assessment of all their planned work.

4. Site security

The site controller is responsible for the security of the school site in and out of school hours. They are responsible for visual inspections of the site, and for the intruder and fire alarm systems.

Arena Security (key holder 1), the site controller (key holder 2) and the headteacher (key holder 3) are the key holders who will respond to an emergency.

5. Fire

Emergency exits, assembly points and assembly point instructions are clearly identified by safety signs and notices. Fire risk assessment of the premises will be reviewed regularly.

Emergency evacuations are practised at least once a term.

The fire alarm is a loud continuous bell.

Fire alarm testing takes place once a week.

New staff will be trained in fire safety and all staff and pupils will be made aware of any new fire risks.

In the event of a fire:

- The alarm will be raised immediately by whoever discovers the fire and emergency services contacted. Evacuation procedures will also begin immediately
- Fire extinguishers may be used by staff only, and only then if staff are trained in how to operate them and are confident they can use them without putting themselves or others at risk
- Staff and pupils will congregate at the assembly points. These are in Courthouse playground.
- Class teachers will take a register of pupils, which will then be checked against the attendance register of that day

- The school office manager or business manager will take a register of all staff
- Staff and pupils will remain outside the building until the emergency services say it is safe to re-enter

The school will have special arrangements in place for the evacuation of people with mobility needs and fire risk assessments will also pay particular attention to those with disabilities. These are already outlined in personal emergency evacuation plans (PEEPs).

6. COSHH

Schools are required to control hazardous substances, which can take many forms, including:

- Chemicals
- Products containing chemicals
- Fumes
- Dusts
- Vapours
- Mists
- Gases and asphyxiating gases
- Germs that cause diseases, such as leptospirosis or legionnaires disease

Control of substances hazardous to health (COSHH) risk assessments are completed by the site controller.

Our teachers/TAs do not use hazardous products. Any hazardous products used by the site controller or cleaners are used and stored in accordance with instructions on the product label. All hazardous products are kept in their original containers, with clear labelling and product information. Hazardous products are stored in the site controller's office and the cleaners' cupboard and pupils have no access to them.

Any hazardous products are disposed of in accordance with specific disposal procedures.

Emergency procedures, including procedures for dealing with spillages, are displayed near where hazardous products are stored and in areas where they are routinely used.

6.1 Gas safety

- Installation, maintenance and repair of gas appliances and fittings will be carried out by a competent Gas Safe registered engineer
- Gas pipework, appliances and flues are regularly maintained
- All rooms with gas appliances are checked to ensure that they have adequate ventilation

6.2 Legionella

- A monthly temperature check is taken by the site controller each month. The site controller then records it in the school's water log book.
- This water risk assessment is reviewed monthly and when significant changes have occurred to the water system and/or building footprint
- All outlets with little use are flushed through each week.
- All outlets are flushed through after each school break.

6.3 Asbestos

- Staff are briefed on the hazards of asbestos, the location of any asbestos in the school and the action to take if they suspect they have disturbed it
- Arrangements are in place to ensure that contractors are made aware of any asbestos on the premises and that it is not disturbed by their work
- Contractors will be advised that if they discover material which they suspect could be asbestos, they will stop work immediately until the area is declared safe
- A record is kept of the location of asbestos that has been found on the school site

7. Equipment

- All equipment and machinery is maintained in accordance with the manufacturer's instructions. In addition, maintenance schedules outline when extra checks should take place
- When new equipment is purchased, it is checked to ensure that it meets appropriate educational standards
- All equipment is stored in the appropriate storage containers and areas. All containers are labelled with the correct hazard sign and contents

7.1 Electrical equipment

- All staff are responsible for ensuring that they use and handle electrical equipment sensibly and safely
- Any pupil or volunteer who handles electrical appliances does so under the supervision of the member of staff who so directs them
- Any potential hazards will be reported to the site controller immediately
- Permanently installed electrical equipment is connected through a dedicated isolator switch and adequately earthed
- Only trained staff members can check plugs
- Where necessary a portable appliance test (PAT) will be carried out by a competent person
- All isolator switches are clearly marked to identify their machine
- Electrical apparatus and connections will not be touched by wet hands and will only be used in dry conditions
- Maintenance, repair, installation and disconnection work associated with permanently installed or portable electrical equipment is only carried out by a competent person

7.2 PE equipment

- Pupils are taught how to carry out and set up PE equipment safely and efficiently. Staff check that equipment is set up safely
- Any concerns about the condition of the hall floor or PE apparatus are reported to the site controller and the PE co-ordinator

7.3 Display screen equipment

- All staff who use computers daily as a significant part of their normal work will have a display screen equipment (DSE) assessment carried out. 'Significant' is taken to be continuous/near continuous spells of an hour or more at a time
- Staff identified as DSE users are entitled to an eyesight test for DSE use upon request, and at regular intervals thereafter, by a qualified optician (and corrective glasses provided if required specifically for DSE use)

7.4 Specialist equipment

Parents are responsible for the maintenance and safety of their children's wheelchairs. In school, staff promote the responsible use of wheelchairs.

8. Lone working

Lone working may include:

- Late working
- Home or site visits
- Weekend working
- Site manager duties
- Site cleaning duties
- Working in a single occupancy office

Potentially dangerous activities, such as those where there is a risk of falling from height, will not be undertaken when working alone. If there are any doubts about the task to be performed then the task will be postponed until other staff members are available.

If lone working is to be undertaken, a colleague, friend or family member will be informed about where the member of staff is and when they are likely to return.

The lone worker will ensure that they are medically fit to work alone.

9. Working at height

We will ensure that work is properly planned, supervised and carried out by competent people with the skills, knowledge and experience to do the work.

In addition:

- The site controller retains ladders for working at height
- Pupils and staff other than the site controller are prohibited from using ladders
- Staff will use the platform to work at height. They will not stand on tables, chairs or any other furniture to work at height
- Contractors are expected to provide their own ladders for working at height
- Before using a ladder, the site controller is expected to conduct a visual inspection to ensure its safety
- Access to high levels, such as roofs, is only permitted by trained persons

10. Manual handling

It is up to individuals to determine whether they are fit to lift or move equipment and furniture. If an individual feels that to lift an item could result in injury or exacerbate an existing condition, they will not lift it and will ask for assistance.

The school will ensure that proper mechanical aids and lifting equipment are available in school, and that staff are trained in how to use them safely.

Staff and pupils are expected to use the following basic manual handling procedure:

- Plan the lift and assess the load. If it is awkward or heavy, use a mechanical aid, such as a trolley, or ask another person to help
- Take the more direct route that is clear from obstruction and is as flat as possible
- Ensure the area where you plan to offload the load is clear
- When lifting, bend your knees and keep your back straight, feet apart and angled out. Ensure the load is held close to the body and firmly. Lift smoothly and slowly and avoid twisting, stretching and reaching where practicable

11. Off-site visits

When taking pupils off the school premises, we will ensure that:

- Risk assessments will be completed where off-site visits and activities require them
- All off-site visits are appropriately staffed
- Staff will take a mobile phone, a portable first aid kit and information about the specific medical needs of pupils
- There will always be at least one first aider on school trips and visits

12. Lettings

This policy applies to lettings. Those who hire any aspect of the school site or any facilities will be made aware of the content of the school's health and safety policy, and will have responsibility for complying with it.

13. Violence at work

We believe that staff should not be in any danger at work, and will not tolerate violent or threatening behaviour towards our staff.

All staff will report any incidents of aggression or violence (or near misses) directed to themselves to the headteacher/deputy headteacher immediately. This applies to violence from pupils, visitors or other staff.

14. Smoking

Smoking is not permitted anywhere on the school premises.

15. New and expectant mothers

Risk assessments will be carried out whenever any employee notifies the school that they are pregnant.

Appropriate measures will be put in place to control risks identified. Some specific risks are summarised below:

- Chickenpox can affect the pregnancy if a woman has not already had the infection. Expectant mothers should report exposure to their antenatal carer and GP at any stage of exposure. Shingles is caused by the same virus as chickenpox, so anyone who has not had chickenpox is potentially vulnerable to the infection if they have close contact with a case of shingles
- If a pregnant woman comes into contact with measles or German measles (rubella), she should inform her antenatal carer and GP immediately to ensure investigation
- Slapped cheek disease (parvovirus B19) can occasionally affect an unborn child. If exposed early in pregnancy (before 20 weeks), the pregnant woman should inform her antenatal carer and GP as this must be investigated promptly

16. Occupational stress

We are committed to promoting high levels of health and wellbeing and recognise the importance of identifying and reducing workplace stressors through risk assessment.

Systems are in place within the school for responding to individual concerns and monitoring staff workloads.

17. Accident reporting

17.1 First Aid Book

- An accident form will be completed as soon as possible after the accident occurs by the member of staff or first aider who deals with it
- As much detail as possible will be supplied when reporting an accident
- Records held in the first aid and accident book will be retained by the school for a minimum of 25 years from date of birth, in accordance with regulation 25 of the Social Security (Claims and Payments) Regulations 1979, and then securely disposed of

17.2 Reporting to the Health and Safety Executive

The Headteacher will keep a record of any accident which results in a reportable injury, disease, or dangerous occurrence as defined in the RIDDOR 2013 legislation (regulations 4, 5, 6 and 7).

The Headteacher will report these to the RBWM Health and Safety Executive as soon as is reasonably practicable and in any event within 10 days of the incident.

Reportable injuries, diseases or dangerous occurrences include:

- Death
- Specified injuries. These are:
 - Fractures, other than to fingers, thumbs and toes
 - Amputations

- Any injury likely to lead to permanent loss of sight or reduction in sight
 - Any crush injury to the head or torso causing damage to the brain or internal organs
 - Serious burns (including scalding)
 - Any scalping requiring hospital treatment
 - Any loss of consciousness caused by head injury or asphyxia
 - Any other injury arising from working in an enclosed space which leads to hypothermia or heat-induced illness, or requires resuscitation or admittance to hospital for more than 24 hours
- Injuries where an employee is away from work or unable to perform their normal work duties for more than 7 consecutive days
 - Where an accident leads to someone being taken to hospital
 - Near-miss events that do not result in an injury, but could have done. Examples of near-miss events relevant to schools include, but are not limited to:
 - The collapse or failure of load-bearing parts of lifts and lifting equipment
 - The accidental release of a biological agent likely to cause severe human illness
 - The accidental release or escape of any substance that may cause a serious injury or damage to health
 - An electrical short circuit or overload causing a fire or explosion

Information on how to make a RIDDOR report is available here:

[How to make a RIDDOR report, HSE](http://www.hse.gov.uk/riddor/report.htm)

<http://www.hse.gov.uk/riddor/report.htm>

18. Training

Our staff are provided with health and safety training every three years.

19. Monitoring

This policy will be reviewed by the headteacher every year.

At every review, the policy will be approved by the full governing body.

20. Links with other policies

This health and safety policy links to the following policies:

- First aid
- Risk assessment
- Supporting pupils with medical conditions
- Accessibility plan
